

Traveller and Writer

Dr. Colin Ross in Sydney

SYDNEY, July 31.

Dr. Colin Ross, the noted writer and traveller, who is in Sydney, on a tour of the Pacific, will leave next week for Queensland, whence he will proceed to New Guinea in continuance of the study of the social and economic conditions of the people of all countries.

Since beginning his travels 20 years ago, Dr. Colin Ross and his wife have penetrated into little known parts of the world, including Chinese Turkestan. His observations have been recorded in a series of travel books, and also in film. One of his most famous books is "With Bag and Baggage," written in German. His experiences on the trip from the Cape to Cairo won him great popularity in Austria and Germany, where he is famed as a lecturer as well as a writer.

Dr. Colin Ross has just completed his latest work "The World in the Scales," a copy of which (in German) has reached Sydney.
